etMEMS ${ }^{\text {TM }} 1 \times 2$ Fiberoptic
Switch
(Protected by U.S. patent 8,203,775 and other patents pending)

Product Description
The etMEMS ${ }^{\top M}$ Series $1 \times 2$ Fiberoptic switch connects optical channels by redirecting incoming optical signals into selected output fibers. This is achieved using a proprietary etMEMS ${ }^{\top M}$ configuration and activated via an electrical control signal. It uniquely features rugged thermal activated micro-mirror movement instead of rotation, and latches to preserve the selected optical path after the drive signal and the power have been removed. This novel design significantly simplify the control electronics, offering unprecedented high stability and an unmatched low cost.

We offer the straight and reflective versions for the flexibility to connect fibers. In addition, we also offer the built-in driver version, which features a convenient user interface.

Performance Specifications

| etMEMS ${ }^{\text {TM }} 1 \times 2$ Switch | Min | Typical | Max | Unit |
| :---: | :---: | :---: | :---: | :---: |
| Operation Wavelength | Single Band | 1260~1360 or | 1610 | nm |
|  | Dual Band | 1260~1360 and | 0~1610 |  |
|  | Broad Band | 1260~1620 |  |  |
| Insertion Loss ${ }^{[1]}$ |  | 0.6 | 1.0 | dB |
| Wavelength Dependent Loss |  | 0.2 | $0.3{ }^{[2]}$ | dB |
| Polarization Dependent Loss |  |  | 0.1 | dB |
| Return Loss ${ }^{[1]}$ | 50 |  |  | dB |
| Cross Talk ${ }^{[1]}$ | 50 |  |  | dB |
| Switching Time |  | 20 |  | ms |
| Repeatability |  |  | $\pm 0.05$ | dB |
| Repetition Rate |  |  | 20 | Hz |
| Durability | $10^{9}$ |  |  | Cycle |
| Switching Type |  | Latching |  |  |
| Operating Temperature | -5 |  | 70 | ${ }^{\circ} \mathrm{C}$ |
| Storage Temperature | -40 |  | 85 | ${ }^{\circ} \mathrm{C}$ |
| Optical Power Handling |  | 300 | 500 | mW |
| Fiber Type |  | SMF-28 ${ }^{[3]}$ |  |  |

[1]. Excluding connectors.
[2]. Dual band and Broad band.
[3]. Please contact us for other SM fiber version.

## Mechanical Dimensions with Built-in Driver (Unit: mm)

Port 1 (Black)

Electrical Driving Requirements with built-in driver

| Pin No. | Symbol | Type | Description |
| :---: | :---: | :---: | :--- |
| 1 | 12VDC | I | DC power supply, voltage range is 11.5V~12.5V. |
| 2 | TTL-A | I | TTL input port. |
| 3 | TTL-B | I | TTL input port. |
| 4 | GND |  | Ground. |

| Control Input Pins ${ }^{[1]}$ |  | Optical Path Directing |
| :---: | :---: | :---: |
| TTL-A | TTL-B |  |
| H pulse ${ }^{[2]}$ | L | Port $1 \rightarrow 2$ |
| L | H pulse ${ }^{[2]}$ | Port $1 \rightarrow 3$ |

[1]. H: high level (3.5V~5.5V), L: low level ( $0 \mathrm{~V} \sim 1.5 \mathrm{~V}$ ).
[2]. H pulse: $(3.5 \mathrm{~V} \sim 5.5 \mathrm{~V})$ high level pulse, minimum width of 10 us is required. It should return to $L$ to prevent repetitively switching actions.
[3]. Please call sale for user manual if the position sensing is needed.
