

## Product Overview

### Gigabit Ethernet 6 Port Office Switch manageable with PoE

## Description

This Gigabit Office Switch is based on the actual Gigabit Ethernet Installation Switch and has the same features. The device is offering full Gigabit Performance on all ports. The connection to the central distribution room is done by the integrated 100/1000Base-X fiber port.

Furthermore the full Power-over-Ethernet functionality according to IEEE802.3af is supported on all 5 user ports. The intelligent power management is monitoring the power consumption of the connected end devices.

The switch has an integrated management agent and supports all standards like web based, Telnet and SNMP. Features like data prioritisation, VLAN and authentication according to IEEE Std. 802.1X are also integrated.

## Properties

- Well equipped, compact, fan-less Gigabit Ethernet switch
- 5x 10/100/1000Base-T autonegotiation with PoE
- SFP uplink with dual speed 100/1000Base-X
- Integrated management agent, SNMP/web-based/Telnet/nmp
- Port-Security (Authentication according to BSI, IEEE 802.1X, etc.)

## Order Information

### Description

### Article Number

---

Gigabit Ethernet Desktop Switch 5x10/100/1000Base-T, SFP uplink 100/1000Base-X, 48 VDC power supply, manageable SNMP/Web/Telnet/nmp, VLANs, QoS, 5x PoE ports IEEE802.3af
